About International Summer School

International Summer School is a three-week, fun-filled English-taught program. It provides an introduction to business studies while allowing students to enjoy their summer break in Barcelona and to make friends from all over the world. The program takes place in July and August at EU Business School (EU) and is specifically designed for high school students aged 16 to 18 who are considering studying business for their bachelor's degree.

Morning classes are complemented by social, cultural and sports activities in the afternoons to provide students with a truly enriching experience. From sports to sightseeing tours, these exciting outings help students learn more about Spanish culture and build a network of lifelong international friendships.

The campus is located in the safe and exclusive upper business district, within easy reach of Plaça Catalunya, the beach and the city's top sights.

Choose Your Track

Students will learn base business skills, and specialize in one of two tracks: Sports Management or International Business. With EU's hands-on approach to business education, students will participate in interactive workshops, company visits, project work, case studies and much more.
